WHO IS FUN SPOT?

Started in the USA in the 1970's, Fun Spot has become a worldwide leader in the design and manufacture of indoor adventure parks.

Integrated into the ABEO group in 2018, FUN SPOT is now a One Stop Shop Solution that offers answers to all your questions about running a family entertainment center business, and a full portfolio of products including trampolines, ninja courses, ropes courses, jr. play areas, interactive games and much more.

Fun Spot around the world

THE CURRENT MARKET

We have seen our market evolve during the last few years, due to technological development and the Covid19 pandemic. With our experience in the market and our up-to-date market studies we are able to say that:

Investors are looking for a secure business with growth opportunities to invest in.

They want to be beneficial to society and to make their visitors happy.

Visitors are looking for long-lasting experiences rather than material possessions and are willing to spend more money on them.

Families want to spend more guilt-free time together.

People want to stay fit and active while having fun.

Parents are worried their children are spending too much time online.

WHY CHOOSE FUN SPOT?

Fun Spot Strengths

Our business is built on the idea that product and service excellence must be a constant pursuit.

We achieve excellence by managing every detail with our customers' needs and goals in mind. This is the philosophy that guides us to create your leisure center

One stop shop solution
In house expertise, quality products, and the best partners give you everything your business needs to thrive

Full customizable solution
Choose from a wide range of colors and the latest technology to personalize your park

Expert sales team
made up of industry professionals who deliver a customer driven approach to match your needs

Quality, safety and operational tools:
Helping you build and manage a safe, high performing park is our top priority

Process

1

BUILDING REQUIREMENTS

- Site selection and design
- Overcoming building constraints to meet safety standards
- Optimised layout and customer' flow

2

BUILDING YOUR DREAM FACILITY

- Working with you to personalize your arena and create dedicated graphics boards for a unique design

3

INSTALLATION

- Installation technicians
- Completion pack and maintenance manual

- Operational support with manuals: maintenance, incident management, technical information and duties, management advice

5

CUSTOMER SERVICE AND MAINTENANCE

- Certified service center
- Yearly maintenance and upgrade operations
- Access to operational tools

Warranty

Questions & Answers

Many of you contact us in the early stages of your location search. We receive many questions, and we are more than happy to answer them.

What is the minimum size and height I need for my multiactivity center?

The size of your space will depend upon your needs and resources. There's no single ideal park size, but here's a couple useful guidelines.

You can operate a successful **small size** facility with 5,000 sq ft dedicated to attractions. If your market and budget supports a **big size** center, plan to dedicate 18,000 sq ft or more to attractions.

To make a point about the **height clearance**, it will depend on the activity you want. To install trampoline activities, ceiling height must be at least 18 ft; for Clip 'n Climb challenges, you will need 22 ft.

How many attractions can I have in my building ?

Throughout this catalog, you'll see minimum dimensions for each attraction. This will help you begin to envision the options for your space. To help you get more specific, **Fun Spot designers** can advise you on the right mix of challenges and can provide you with renderings and fly-through videos to **help you make great decisions**.

What is the budget needed to start my park?

The budget needed to start your park will depend on many factors. We've leveraged our experience helping people open parks around the world to create an e-book that includes **cost estimates** and other useful considerations.

TRAMPOLINE ATTRACTIONS

Since 1989, we have been producing colorful and durable trampoline fabrics. This is our core business and we have fully participated in the evolution of this activity over the last decade. That is why we now offer a long list of complementary activities that will allow you to stand out from your competitors.

OUR SAFETY CHECKLIST:

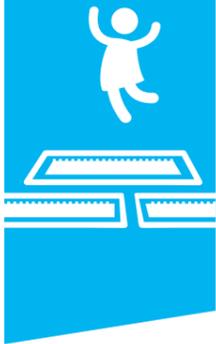

- ✓ Our products and facilities are certified to **ASTM F2970-22** and **BS PAS 5000-2017** standards.
- ✓ We provide checklists for routine inspections.
- ✓ To ensure staff readiness, we provide a comprehensive training service.
- ✓ An annual maintenance contract is the best way to ensure quality and safety.

- Sweeper p.17
- Kids Court p.18
- Basketball Dunk Lanes p.20
- Air Bag and Foam Pit p.21
- Parkour over Tramp p.24

CORE ACTIVITIES MAIN COURT

The Main Court within any trampoline park is the core zone where visitors develop their skills and enjoy discovering the different options trampolining can offer. Turn a main court into a video game party with Pleyo!

Key features :

- 100% customizable, regardless of the columns we can design the main court anyway you like!
- A good size is 1/3 of the park.
- Note that curved wrap up mats can be used for angled walls.

Technical info :

Capacity per hour	150 jumpers
Staff required	1 monitor / 32 jumpers
Minimum ceiling height	18 ft
Minimum area	+ 214 sq ft

How to customize it?

3 main court examples :

There are countless possibilities to create your own arena. The most important thing is to think about your target and how big you want the area to be.

Here are some examples to give you some ideas.

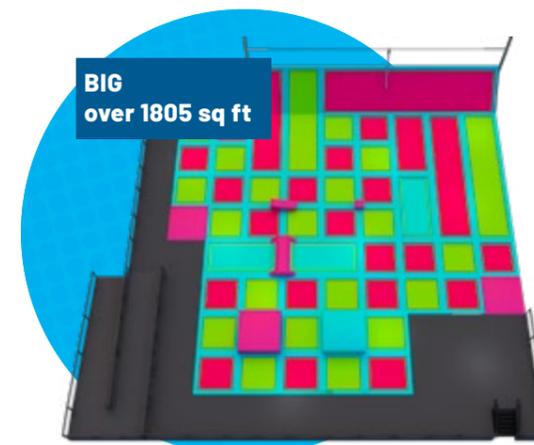

SMALL
starting at 214 sq ft

Capacity	8 at the same time
Number of features	Angled wall Long lane Jump boxes Mini cube
Minimum area	+ 214 sq ft

Capacity	35 at the same time
Number of features	Angled wall Long lane Jump boxes Flip & Run Mini cubes Slide trampoline Wrap up trampoline
Minimum area	+ 985 sq ft

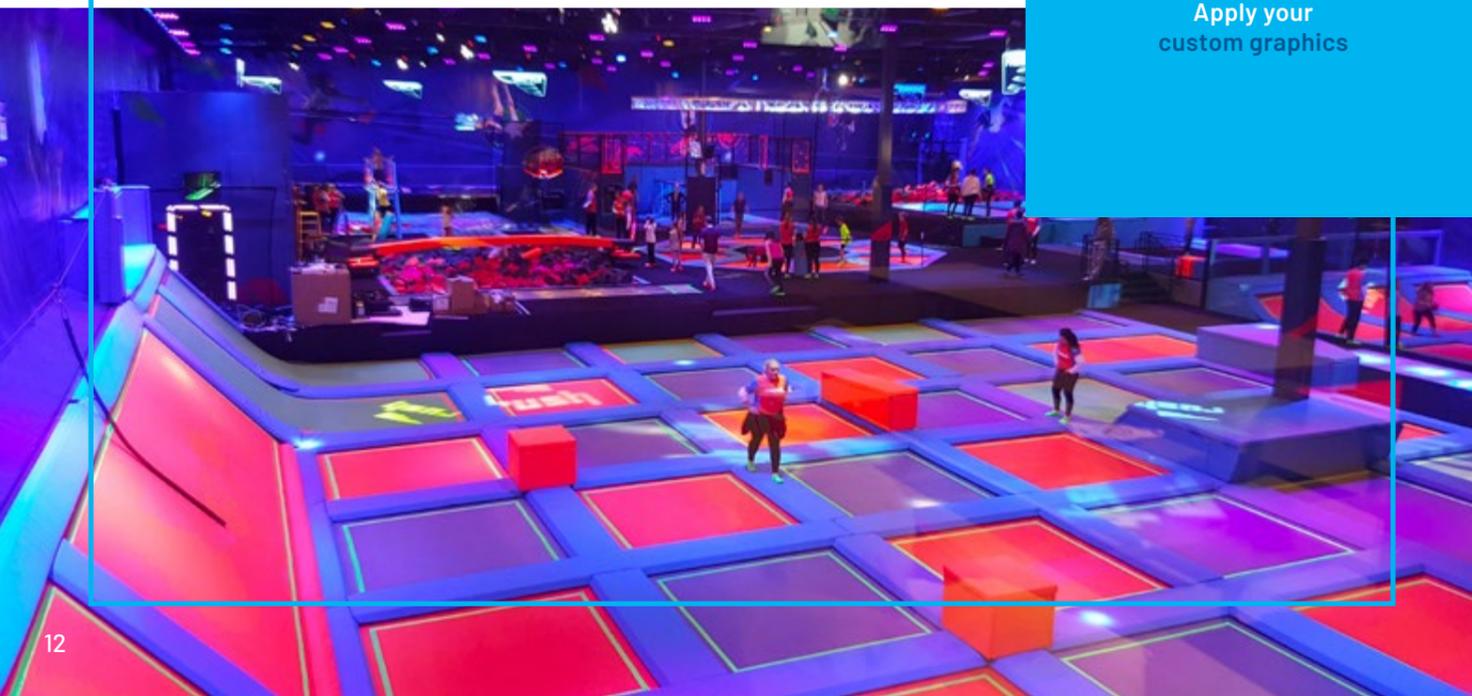

MEDIUM
over 985 sq ft

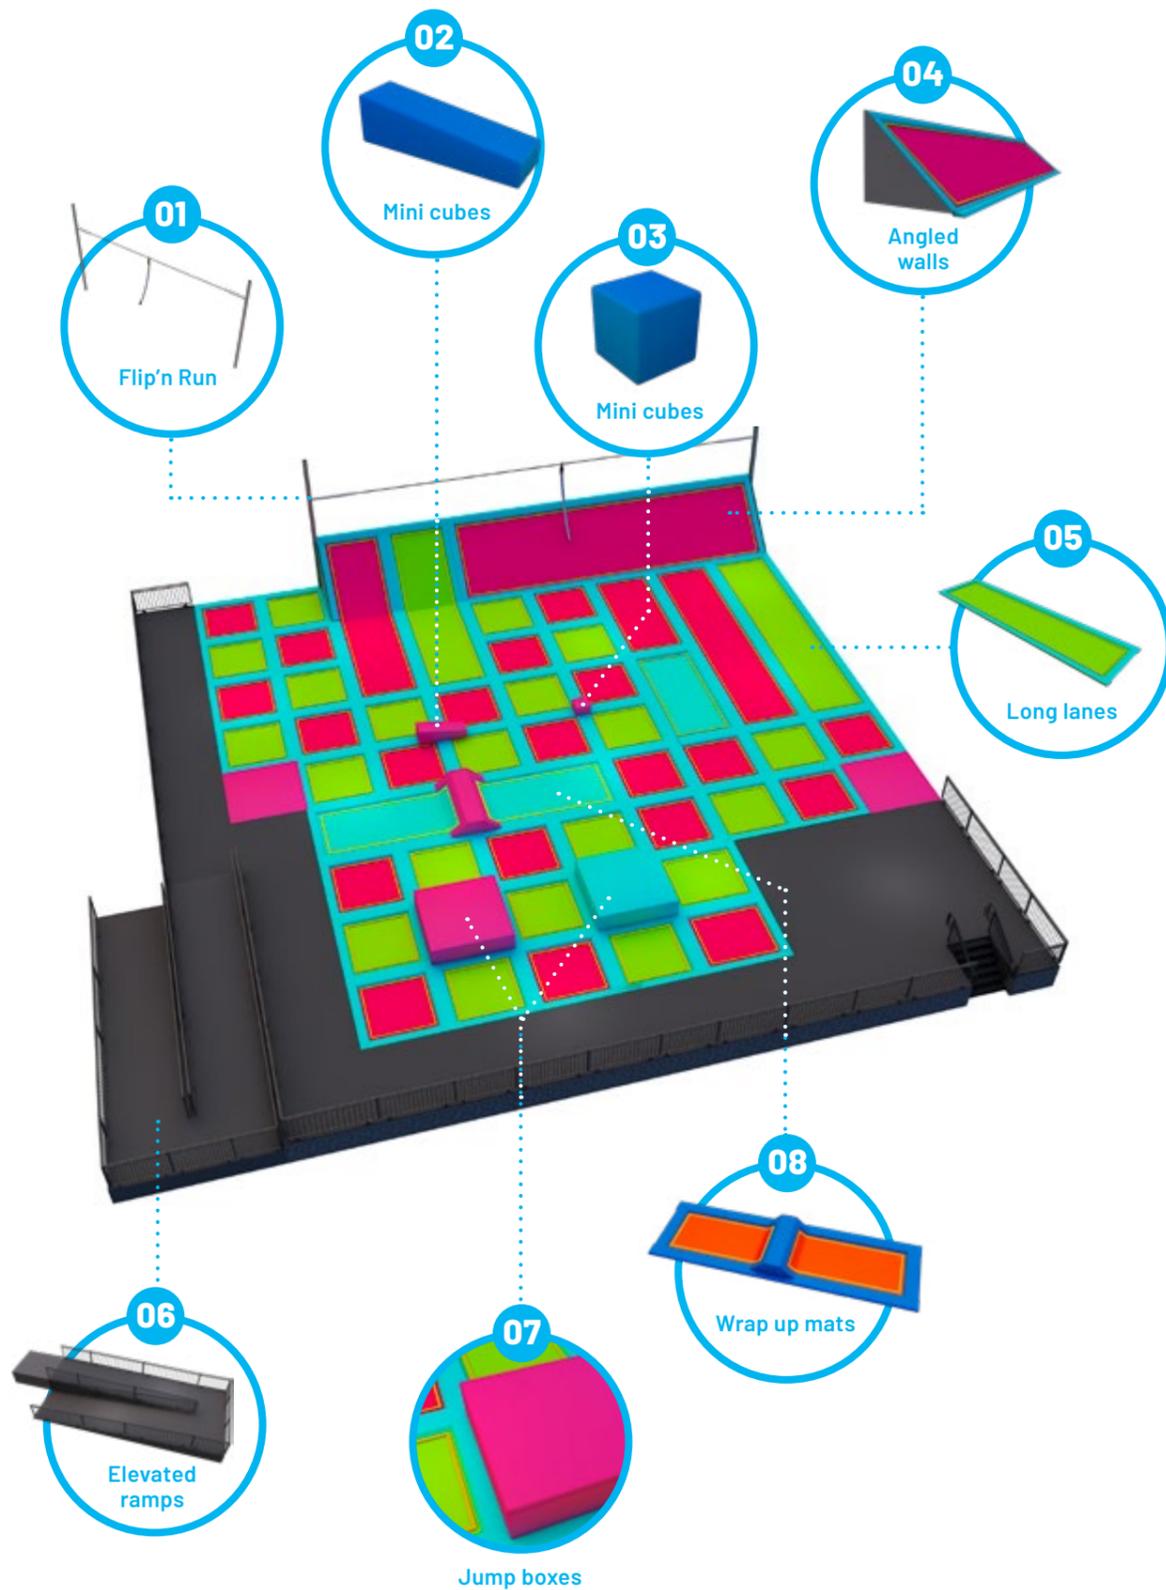

BIG
over 1805 sq ft

Capacity	70 at the same time
Number of features	Angled wall Long lane Jump boxes Flip & Run Mini cubes Slide trampoline Wrap up trampoline
Minimum area	+ 1805 sq ft

Our features :

CORE ACTIVITIES DODGEBALL

Featuring middle ramp-up surfaces and multiple styles, Xtreme Dodgeball supports mega-active play in a safe and visually stimulating space that is totally customisable to your brand and architecture.

Key features :

- Everything is custom, we design your dodgeball court to maximise your space
- Open view with no high angle walls, which allows spectators to observe multiple games at one time

Technical info :

Capacity per hour	270 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	525 sq ft

CORE ACTIVITIES AERO TOWER

Our newest innovation integrates AeroStrike technology by Rugged Interactive. Up to 4 players shoot balls at auto return targets while bouncing on trampolines, testing hand-eye coordination and providing great aerobic activity.

Key features :

- The top of AeroTower moves back and forth while the base remains stationary, providing a unique and challenging basketball-style experience.
- 2-player teams or individuals compete against the clock to make as many baskets as possible within the time limit.
- Make it your own with fully customizable graphics.

Technical info :

Capacity per hour 96 jumpers

Staff required 1 monitor shared with other attractions

Minimum ceiling height 18 ft

Minimum area 158 sq ft

CORE ACTIVITIES SWEEPER

Try jumping over the rotating inflatable arm as the speed slowly increases! The patented attraction has earned its place as our most popular attraction. On-going innovation means it just keeps getting better.

Key features :

- The speed control of the inflatable arm can be managed easily by the operator thanks to a control box.
- To make sure safety is 100% controlled, whenever the arm makes contact, the clutch engages and prevents hard knocks.

Technical info :

Capacity per hour 80 jumpers

Staff required 1 monitor shared with other attractions

Minimum ceiling height 18 ft

Minimum area 158 sq ft

How to customize it?

Color Customization of all the materials (see p.43)

CORE ACTIVITIES KID'S COURT

Provide little kids with a memorable, magical, and fun experience with Kid's Court. It is safely designed to develop and engage little brains and bodies.

Key features :

- We design your Kid's court to maximise your space and to make sure a parent or guardian remains present or can even sit close and participate.
- We suggest including an overflowing foam pit to add extra fun to the court and offer an intermediate activity for the ones who cannot jump yet!

Technical info :

Capacity per hour	120 jumpers
Staff required	1 monitor / 32 jumpers
Minimum ceiling height	18 ft
Minimum area	165 sq ft

How to customize it?

Our features :

CORE ACTIVITIES DUNK LANES

This is a must have in an essential trampoline park package. Each lane allows for high flying fun as you practice hardwood skills on trampolines. Add Battle Baskets technology to enhance the fun and energy levels.

Key features :

- Engineered to withstand commercial grade use so that children can hang off hoops
- If the space allows it, we recommend having a 2 lanes set with different heights to fit any age.
- It can be fitted with a hydraulic post that moves up and down
- It is a perfect complement to Dodgeball and Kid's court

Technical info :

Capacity per hour	120 jumpers / lane
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	48 sq ft

How to customize it?

Color Customization of all the materials (see p.43)

Digital Tech Upgrades

Apply your custom graphics

CORE ACTIVITIES AIR BAG & FOAM PIT

Another essential feature of a trampoline park is the Air Bag area or Foam Pit. This area remains the most popular attraction within a trampoline park because it is something that allows you to go crazy and that you will not find at home.

Key features :

- Flooring options: Airbag and foam pit.
- All materials have been chosen to make sure all the activity options are 100% safe
- Frame options: Stand alones and Multi pit event (see examples on the next pages)
- Featured partners: Big Air Bag

Technical info :

Capacity per hour	Foam cubes: 150 Air bag: 200
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	263 sq ft

How to customize it?

CORE ACTIVITIES PARKOUR OVER TRAMP

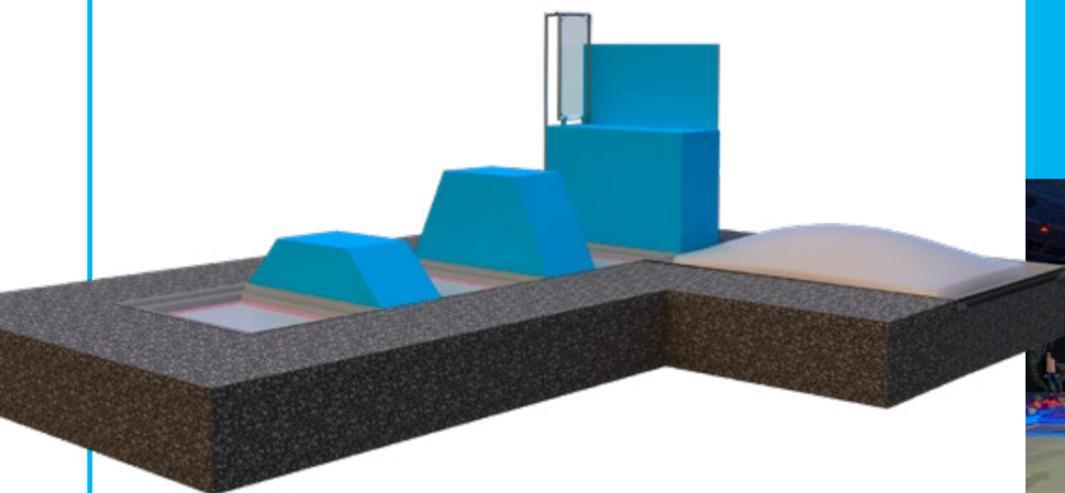

Give your guests the opportunity to learn the art of moving. Beginners will be able to start out without fear and the more advanced will have the opportunity to try new tricks without risk.

Key features :

- Parkour steps (2 options)
- Padded block in different sizes
- Perfect combined with Ninja Course

Technical info :

Capacity per hour	120 jumpers
Staff required	1 monitor shared with other attractions
Minimum ceiling height	18 ft
Minimum area	66 sq ft

Take advantage of the height of your ceiling by proposing different types of fun climbing challenges that will appeal to young and old alike with the market leader in Fun Climbing.

Clip 'n Climb is the creator and the market leader in the Fun Climbing industry! With over 50 unique climbing Challenges designed to stimulate several senses simultaneously, Clip 'n Climb is for everyone from 4 years upwards, regardless of climbing level.

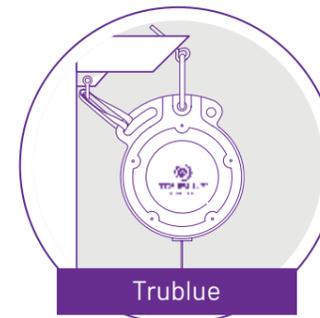

- Safety p.29
- Challenges p.30
- Marketing Support p.33
- Adventure zones p.34

CLIP 'N CLIMB SAFETY IS EVERYTHING

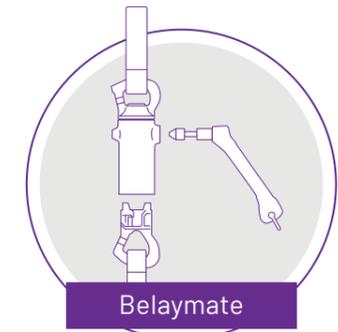

Normes
EN 1176
EN 12572

Safety is our watchword at Clip 'n Climb, and all our Challenges are designed to be hazard free. We extensively test them before adding them to our range. We have developed safety devices and procedures to improve safety and reduce staffing costs without neglecting the visitor experience:

Trublue

The best auto belay system available on the market for complete peace of mind for climbers and operators.

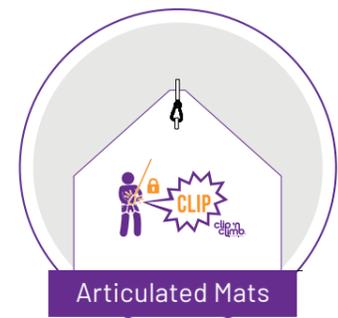

Belaymate

A clipping device to eliminate the risks of wrong attachment. The Challenge only is accessible once the climber is perfectly attached. It allows climbers to be more independent.

Safety flooring

Even if there is no specific regulation, we insist on providing you with safety surface to attenuate any impacts.

Articulated Mats

Creates to control access to the Challenge, it signals its use and warns participants there is a climber above.

Technical info :

Capacity	Staff required	Minimum ceiling height	Minimum area
1,3 person / climbing line	1 monitor / 12 climbers	21 ft	28 sq ft / challenge

CLIP 'N CLIMB OUR CHALLENGES

With 3 exciting ranges and over 50 different Clip 'n Climb Challenges available in funky contemporary colors, Clip 'n Climb has huge appeal regardless of age or aptitude.

BLOCS SPIRALES PINBALL PING SMILEY FIZZURE ILLUSION KORAL POLARIZED TRIGG

BOULDERING

The most effective climbing wall to incorporate into your park is the bouldering wall, which we can also modify to make a traverse wall. The height is limited so guests do not have to wear harnesses. Easy to do, this activity will suit all your customers.

Technical info :

Capacity	1 climber (climbing line) every 3 ft
Staff required	1 monitor / 12 climbers
Min ceiling height	9 ft
Minimum area	60 sq ft

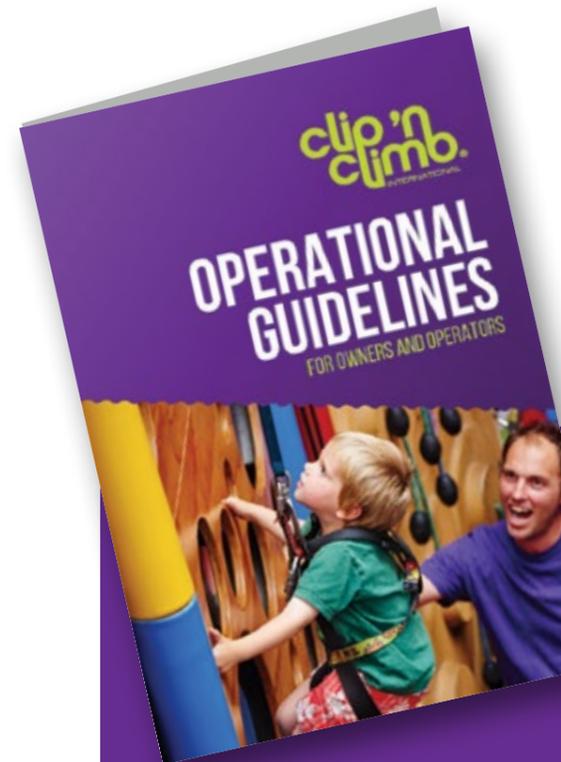

CLIP 'N CLIMB MARKETING SUPPORT

As a member of our Clip 'n Climb global community, investors benefit from direct access to a full support plan from your project building to equipment and maintenance. A dedicated extranet is at your disposal to connect with Clip 'n Climb owners to share tips, ask for recommendations and download all the materials.

Brand support :

- Brand Licensing
- Brand Guidelines and Social Media Guidelines
- Tools:
 - Collaterals: climbing passes, loyalty cards, posters...
 - Website and booking system (Our online booking system has proven extremely popular with users)
 - Proven marketing strategies and tips

Support before, during and after sales can be managed on a local basis.

2 adventure zone examples :

From 3 Challenges up to more than 50 lines, the possibilities are infinite to create your Clip 'n Climb area.

Here are some examples to give you some ideas :

CORNER

Example configuration

- 7 challenges
- 7 lines
- 12 climbers

Big Cheese | Checkerplate
Pixetron | Cloud 9 | Dry Ice
Stairway to Heaven

26 ft x 26 ft = 676 ft²
Available ceiling height = 27 ft

STAND-ALONE

Example configuration

- 8 challenges
- 11 lines
- 22 climbers

Big Cheese | Face to Face
Twister | Aliens with lights
Dry Ice | Stairway to Heaven
Pixetron | Leap of Faith

42 ft x 54 ft = 2268 ft²
Available ceiling height = 27 ft

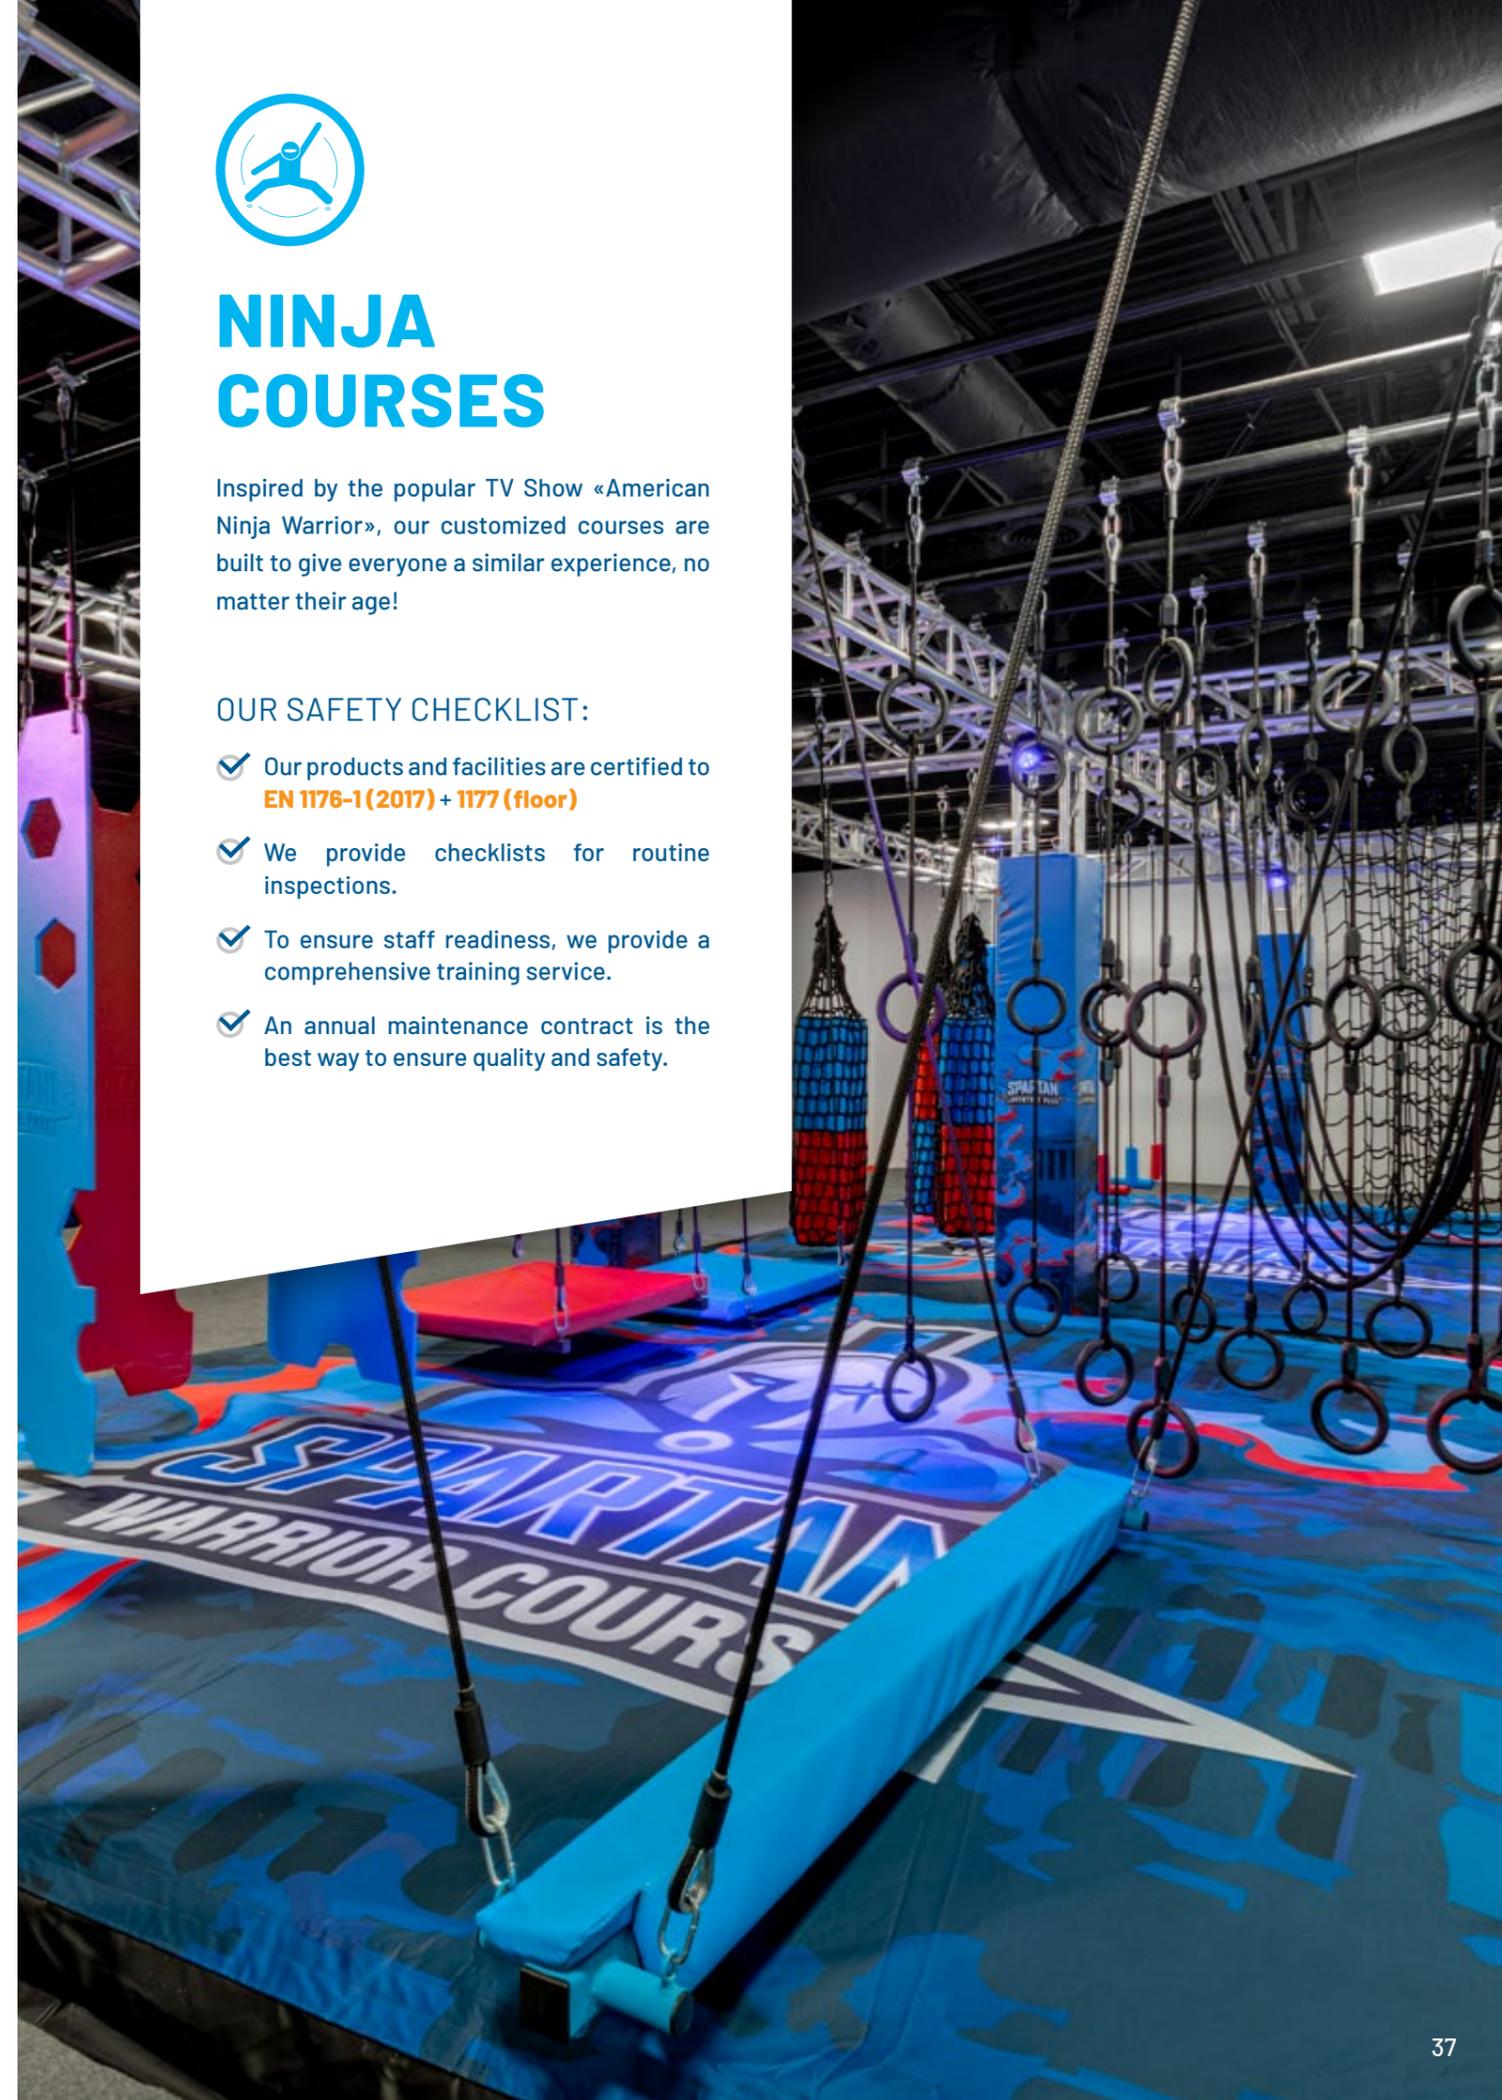

NINJA COURSES

Inspired by the popular TV Show «American Ninja Warrior», our customized courses are built to give everyone a similar experience, no matter their age!

OUR SAFETY CHECKLIST:

- ✓ Our products and facilities are certified to **EN 1176-1 (2017) + 1177 (floor)**
- ✓ We provide checklists for routine inspections.
- ✓ To ensure staff readiness, we provide a comprehensive training service.
- ✓ An annual maintenance contract is the best way to ensure quality and safety.

FUN SPOT Fun SCAPE

Indoor Playgrounds

Keep toddlers and kids under age 7 entertained for hours. FunScape is a great option for Family Entertainment Centers, Community Centers, Worship Communities, Child-Care Facilities and more.

ENGAGE IMAGINATIONS:

- ✓ Custom-design an experience that teaches kids about your community's values while they play.

DESIGNED FOR ENDLESS JOY:

- ✓ Little ones can run, jump, tumble, and climb in a playground that's just their size.

FITS ANY FLOORPLAN:

- ✓ Replace an outdated attraction, fill an empty corner, liven up a playroom or create an eye-popping centerpiece.

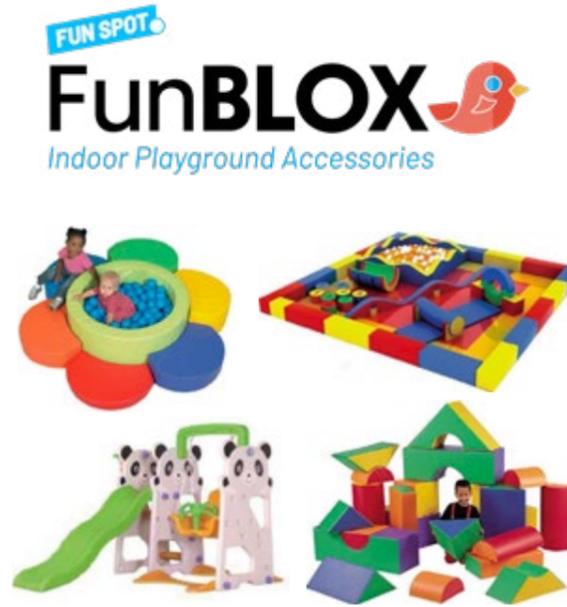

SAFETY COMES FIRST:

- ✓ Every FunScape installation is certified to **ASTM STANDARDS**

Customize with color, logos, fun features, & FunBlox:

Tell us your vision, and we'll custom design a FunScape incorporating dozens of fun experiences sized just for babies and kids under age 7.

- Quality materials built to last.
- Built-in educational and safety features create a perfect day of healthy activity and smiles for young families.
- FunBlox Playground Accessories are an affordable way to increase the fun and utilize adjacent space.
- FunBlox are made of durable, safe, and easy-to-clean materials.
- Optional add-ons: Custom colors, LED lights, interactive sensory features.

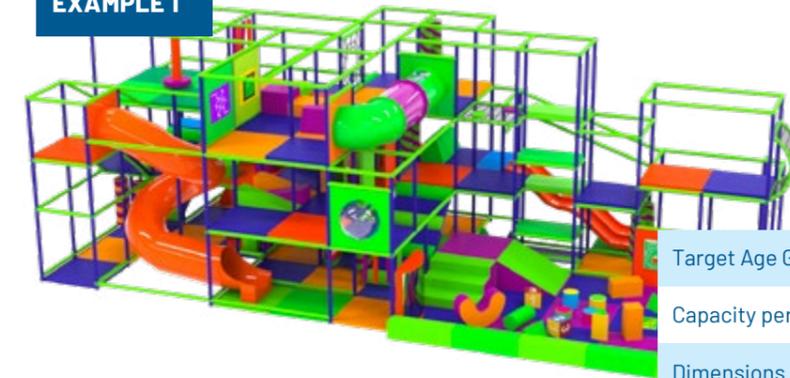

Standard FunScape zones :

There are countless possibilities to create your own FunScape. The most important thing is to think about your guests and the amount of floor space you will dedicate to your new FunScape.

ADDITIONAL ACTIVITIES VALO CLIMB

Thanks to our partners Valo Motion, we are able to offer you the most advanced augmented climbing wall: Valo Climb. It merges the idea of video game play with physical fitness. This technology makes the fun endless for all your guests.

Technical info :

Capacity per hour	Staff required	Min. ceiling height	Minimum area
20 players	1 monitor shared with other attractions	9 ft	63 sq ft

ADDITIONAL ACTIVITIES TRAILBLAZER

Players will be able to test their agility, scoring points by pressing the illuminated grips as they climb the easy-to-hold grips and comfortable foot-holes for trampoline socks. Can be played individually or up to 8 players at a time!

Technical info :

Capacity per hour	20 players
Staff required	1 monitor shared with other attractions
Min. ceiling height	9 ft
Minimum area	66 sq ft

ADDITIONAL ACTIVITIES POWR PLAY

With its flashing targets, exciting sound effects and fast-paced gameplay, PowrPlay is perfect for team games. Featuring electronic scoreboards tracking each goal scored and displaying the winning team and with a one-touch start button to launch the 4-minute game, it is easy to use.

Technical info :

Capacity per hour	40 players
Staff required	1 monitor
Min ceiling height	24 ft
Minimum area	132 sq ft

ADDITIONAL ACTIVITIES MULTI-SPORT COURT

A versatile and innovative sports surface designed for various physical activities. It's like walking on a cloud, making every move feel light and effortless. Whether you're shooting hoops, spiking a volleyball, or scoring a soccer goal, it's all smiles and laughter on this fun-filled surface. It's the kind of place where you can unleash your inner athlete while feeling safe and happy.

Technical info :

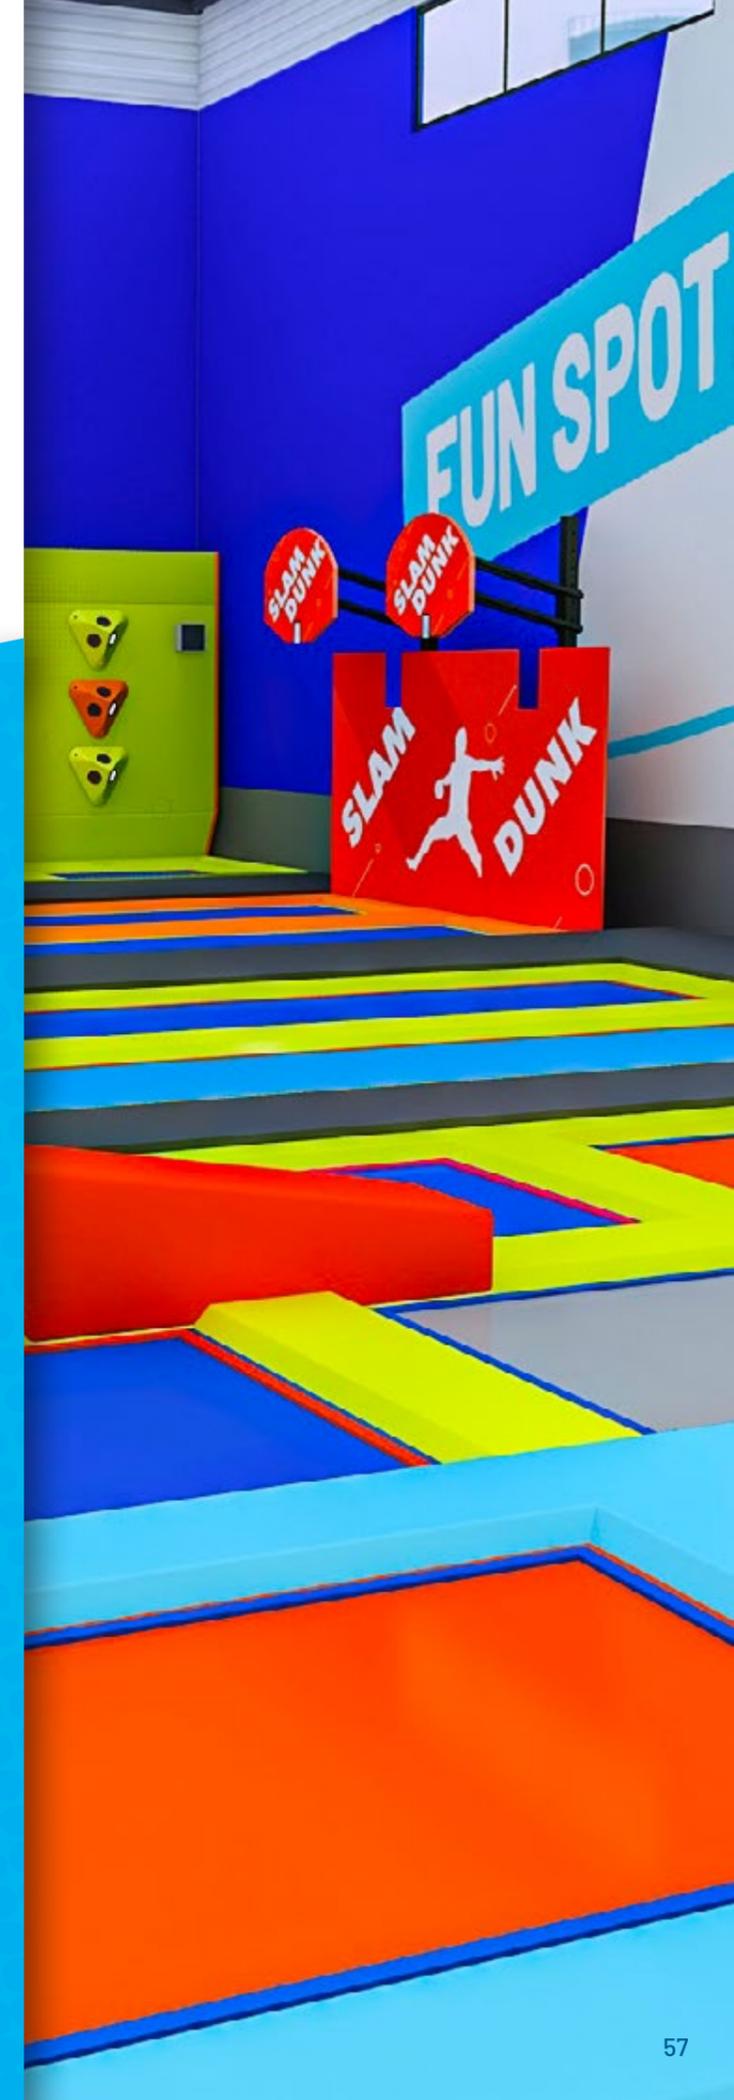

Capacity per hour	Staff required	Min ceiling height	Minimum area

TESTIMONIALS

JEREMY HALL - Director, Rebound UK

"Fun Spot did everything to perfection! I can't tell you how comforting it was to know that my questions would be answered within 24 hours. My park has been open for some time now, and I cannot say enough great things about the build quality. The manufactured structure and softer components are beautiful and reliable. I honestly can say that Fun Spot made my park better than I could have ever imagined."

DUSTIN PELLETIER - Owner, Big Air Spartanburg

"When we chose Fun Spot, we chose American made parts and labour. It was a breath of fresh air to know that I was their top priority from start to finish. Building a park can be stressful, but Fun Spot made it, well - fun and exciting. I've started a lifelong relationship with everyone that helped with our park."

DARREN HEDGES - Director of Air Hop in UK, Germany and Sweden

"We had a trampoline that was damaged. I called up Fun Spot on a Wednesday afternoon, they made the trampoline that evening, shipped it the next day, and by Friday lunch time it was fitted and repaired."

BETHANNE BROWNING - Owner of The Factory

"Fun Spot sent a trainer to help me as I opened this first park. I really didn't know what to expect and they sent someone to help me. She helped me train my staff and just kind of showed me how to run a trampoline park - every aspect of it. That was very, very helpful when you are starting out in this industry."
